Era of Digital Money

About Fintech

Fintech is the new financial industry that applies technology and innovation to deliver financial services using new applications, processes, products, or business models provided as end-to-end processes via the Internet.

Smartphones for mobile banking, investing services and cryptocurrency aim to make financial services more accessible to the general public. Startups and established financial institutions and technology companies are trying to replace or enhance the usage of financial services provided by existing financial companies.

Market Scenario

- Global Fintech investment market was valued at approximately US\$ 39.6 billion in 2017; It is expected to reach US\$ 152.94 billion by 2025.
- It is anticipated to grow with a healthy growth rate of more than 18.40% over the period 2018-2025.
- India is currently one of the fastest growing Fintech markets in the world.
- It is expected that digital payments in India will exceed US\$ 500 billion by 2020, up from US\$ 50 billion in 2016.
- The Indian Fintech software market alone is expected to touch US\$ 2.4 billion by 2020.
- Government's Financial Inclusion and Digital India initiatives are driving the innovation.
- Fintech funding amounted to 21.47% of the country's total start up funding in Q1 of 2018.
- India offers the highest expected return on investment on Fintech projects at 29% versus a global average of 20%.

FINTECH India 2021
